

Good afternoon,

The SARA Title III reporting, also known as EPCRA program management was transferred from IDEM to IDHS effective July 1, 2015.

Beginning January 1, 2016, the facility reporting process for all EPCRA notifications and data acquisition by all LEPCs and fire departments changed due to the Indiana Emergency Response Commission (IERC) using the online portal known as *Tier II Manager* to receive online reports from facilities around the state. The platform adds new functionality to the reporting process, including the following:

- ☐ One-Stop Reporting: Facilities no longer need to submit three separate reports to the IERC, LEPC, and fire departments. Instead, a single submittal through *Tier II Manager* satisfies all three requirements.
- ☐ Online Payment: The reporting fee is now part of the reporting process and must be completed in order to certify the Tier II report. (Major credit cards and e-checks accepted). Facilities no longer use the HC-500 process.
- ☐ Account Access & Facility Information: Facilities can edit their respective accounts and facility information at any time through the online portal.
- ☐ Access to EPCRA Reports: The IERC, LEPCs and Fire Departments can access all EPCRA reports/notifications at any time.
- ☐ Manage Facility Chemical Inventory: The IERC, LEPCs and Fire Departments can search for and delineate chemical types and quantities reported for planning purposes.
- ☐ Automatic Notifications: The IERC, LEPCs and Fire Departments are instantly notified about facility notifications/updates.

Presenters will be Krystal Hackney and Marc Torbeck, SARA Title III Specialists, from Indiana Department of Homeland Security (IDHS).

There is no fee to attend the workshop.

Please RSVP with the County LEPC host you plan to attend the workshop at within 1-2 weeks of the workshop.

Contact saratr2@dhs.in.gov with any questions.

Please see dates, locations, and contacts for RSVP below:

Date	Time (EST)	Location	County	LEPC Host	Contact Information
